Light and Shadow *Exhibition*

23rd Apr – 25th May 2016

1650 Studio & Gallery, Echo Park,

Los Angeles, USA

Erotic photographer Steve DT has been selected by the Juried panel for the 'Light and Shadow' exhibition group show, with his image of 'Sylvia enters the room' (as shown above).

The beauty of light never fails to inspire. Light can dazzle, it can seduce and it can be so intoxicating that many spend hours attempting to capture its essence inside a small box, meanwhile the depth of the shadows brings life into focus . . . and so, for this international exhibition, a total number of 60 art works have been brought together to unify the extremes.

The 1650 Gallery has been providing an outlet for contemporary photographic art for a number of years.

After the exhibition, there will be a charity auction of some of the exhibited works.
