

Steve DT

February 2016

SEAF 2016

- *International Erotic Art Festival*

22nd Apr – 24th Apr 2016

Seattle, USA

Erotic photographer Steve DT is delighted to have three images that will be digitally displayed throughout the event within the Erotic Overflow Room. The photos selected are from the Steve DT's 'Use Me' series.

Now in its 14th year, the Seattle Erotic Art Festival is produced the Foundation for Sex Positive Culture. It began with a desire to showcase stunning erotic art. To create a place to celebrate, discuss and support pieces that were rarely seen in mainstream galleries and museums. "We dreamed of sexy people in a lush environment devouring amazing art; of an event that joyfully encouraged people to be as open and expressive as they wanted to be. And we brought it to life."

SEAF mission statement -"Seattle Erotic Art Festival encourages the creation, enjoyment, and purchase of erotic art—sparking conversations to ignite personal and cultural evolutions."

The Seattle Erotic Art Festival is proud to showcase five different types of erotic art; visual, performance, installation, literary, and film – and presented by outstanding artists from all corners of the world.
